Subject: project number C/025/0005

Utah Division of Oil, Gas and Mines regarding their approval of the application for the coal mine on the section of private land in Alton. project number C/025/0005.

I live in Panguitch, Utah, and I think this Mine in Alton would become the death of our town, Not to mention with Real Estate prices on the decline this would for sure make trying to sell any land or homes in the area impossible. The state is trying to build tourism, this will set it back to where no one will want to visit a dark, dirty, noisy, coal mining area. Please do not allow this to happen to our State, our Town, and our Country

Sincerely
Joy Sabatino
